

*“Hideaways in folk tales are always set in clearings in dark forests. They represent a corner of the civilized world lost in wild natural surroundings. They are the shelter that magically comes into sight just as the hero was beginning to despair of finding a place for the night. The cottage is plain, modest, and simply furnished.”*

- Sonya Faure, *Hideaways: Cabins, Huts and Tree House Escapes*

Sometimes we want a tiny space that wraps us in a cozy embrace and says . . .  
“*You are safe here*”.

**Maybe it's a place to rest, or to write, paint or escape . . .**

A proper hideaway is nearly the tree house you dreamed of as a child; snug and uncomplicated. The whole floor plan might fit in your dining room at home. It might be in the backyard or deep in the woods. Its innate simplicity is what gives it beauty in a complicated world.

If this sounds like something you dream of, give us a call and we will help you design and build the hideaway that best fits your needs, where you need it to be.
